Important things to know about selecting or changing your PCP

A primary care physician (PCP) is your health guide – someone who can help coordinate your care and support you in achieving your best health.

Your PCP:

- Must be a general practice, family practice or internal medicine provider or a pediatrician
- Must be an individual provider, not a medical practice
- Must be accepting new patients (if you are not a current patient)
- Must be located in a town or city near where you (the subscriber) live or work
- Can be selected for the entire family, or each covered member can select their own

If changing your PCP, please select a new PCP and have their Provider ID number. You can change your PCP by signing in at myuhc.com or by calling us at **1-888-586-6365.**

It's easy to browse network PCPs

- Go to **exploreuhcplans.com/csveba** > Search for a Provider
- Select the network you are in or interested in searching
- Update your location if necessary
- Select People > Primary Care > Select type of physician
- From the provider listing, either enter the name of the PCP you would like to look up or click on the name of the PCP you'd like to select and write down the 10-digit Provider ID number – you'll need it when you enroll or change your PCP.
